

# Marc O'Polo

EST. IN STOCKHOLM

## End to End Supply Chain Management

Elanders Group operates the Marc O'Polo warehouse to supply both the outbound and all returns management from all outlets in Europe. This covers the B2B, B2C and all production samples.

## Services Provided

Our operation covers all physical logistics and fulfilment activities with additional value-added services including RFID tagging, reduced price labelling and security tags as well as customized labeling.

## Omnichannel Returns

Elanders manage the complete omnichannel returns solution for B2C & B2B. Specific value-adding returns management services for example product grading and reconditioning every return in order to support the customer service proposition.

## Customer Benefits

Reducing complexity through omnichannel solutions. Supporting the customer-centric offer - effective consumer interaction

Transparency in execution - operational and cost visibility. Agile and flexible in design - support future business needs
