OUR STORY

Exceeding expectations

Founded in 2008, Dynamo Global is driven by a clear conviction: to positively impact the sustainable growth of organisations.

Today, the founders continue to lead the company's innovation journey, ensuring that every organisation they work with receives tailored solutions designed to enhance performance and support sustainable growth, through a broad ecosystem of tools.

Rodolfo Arocena
Co-founder, Chief
Business Success
Officer

Agustín Quagliotti
Co-founder,
Chief Technology
Officer

We work to exceed expectations by implementing the best and most relevant solutions for each of our clients, delivering a service built on trust and long-term partnerships.

ABOUT US

Helping Business Succeed

Our approach is centred on close collaboration, strong commitment and a deep understanding of each organisation.

We see technology as a catalyst for real impact, bringing together technical excellence and human support.

For this reason, we work side by side with our clients to transform processes, organise information and enable decisions that foster sustainable growth.

// *What Dynamo offers is a service that allows us to implement at our pace. They are able to front the right person when we need to speak to them. They've taken the time to understand our business and what we want to achieve. I like to look at Dynamo as an extension of my internal project team..... In my 20 years of implementing ERP platforms, this is the first company that I feel comfortable giving a testimony for. **//***

Matthew Arnott
ERP Product Lead.

OUR TEAM

140+ professionals

leveraging deep experience and technical expertise to help businesses optimise their processes and information, while ensuring their systems run reliably and efficiently

Our team is fully prepared and highly skilled to approach projects holistically, understanding business needs, translating them into clear processes, and supporting them with coherent, scalable technology solutions.

Of course I would recommend Dynamo. They have truly become a commercial partner for Ricoh, understanding our needs, our business, and our transformation to a digital services company. I think they are an excellent Partner and have a lot of experience, including within the Microsoft ecosystem.

Esteban Ureña

Director of Information Technology at Ricoh Latinamerica.

The best strategic partner for your organisation

Our role extends beyond the delivery of individual services or the resolution of isolated technical needs.

We build strong, long-term collaborative relationships focused on mutual growth, integrating as a trusted partner within the organisation to bring experience and expertise, enhance current operations and support future growth ambitions.

// *Dynamo knows Quantik's business: they know our concerns; what a client means to us; what concluding a contract means; and what having the information in the system to accomplish our promises means too. If I had to say what differentiates Dynamo from the rest, it's the closeness, the service and the trust that has built up over the years of a successful partnership. //*

Rafael Staricco
CEO of Quantik

Trusted by leading organisations

Let's move forward together and transform growth into action, momentum and sustainable results.
