Our Helping Business Succeed approach

Our Purpose

Founded in 2008, Dynamo Global is driven by a clear conviction: to positively impact the sustained growth of organisations. Today, the founders continue to lead the company ensuring that every organisation Dynamo Global works with receives tailored solutions designed to enhance performance and support sustained growth.

Rodolfo Arocena
Co-founder, Chief Business Success

Agustín Quagliotti
Co-founder, Chief Technology Officer

“We help address business challenges by focusing on the continuous improvement of **business processes and the optimisation of information to support effective decision** making, while supporting the full lifecycle of their business management systems.”

Our team

More than 140 professionals leveraging deep experience and technical expertise to help businesses optimise their processes and information, while ensuring their systems run reliably and efficiently

140+ specialists

18+ years industry experience

60+ Dynamics implementations across industries.

Our team is fully prepared and highly skilled to approach projects holistically, understanding business needs, translating them into clear processes, and supporting them with coherent, scalable technology solutions.

We combine multidisciplinary teams with extensive professional expertise in Microsoft Dynamics 365, Business Intelligence, AI, and Business Process Consulting to deliver tailored technology solutions that optimise processes and support sustained growth
